

Dear Parent,

We are so pleased you are considering “littleborough” for your early childhood care needs. Our new facility will bring to life everything we’ve learned about kids over the last 20 years. Today’s pre-school aged child faces new challenges and has new needs. We are developing a program that will support all learning styles in a safe, inclusive and thoughtful environment. Children in our care will grow socially, emotionally and physically in preparation for their next level of development.

Our program staff are exceptional. We take the time to hire staff that really want to work with children each day. We don’t “fill a position” but build a family. This is why most of our senior staff have been with us for five years or more and are committed to creating the perfect environment for your child to always thrive in.

We are not a national, corporate childcare provider or a stand alone family daycare. We are a Massachusetts family-owned company dedicated to providing the highest quality childcare in the state. We listen to our parents, our staff and our children and create the best of all worlds under one roof. I hope you’ll join us.

All my best,

Christeen Rohwer
Founder and Owner
